# Champagne region

Champagne is a country with low relief, accentuated and varied. It acts as a transition between the Paris Basin and the East of France. It offers an exceptional cultural heritage, made up of numerous Gallo-Roman remains and Gothic-style monuments. The city of Reims is renowned for its sumptuous Notre-Dame Cathedral.

High point of French gastronomy, Champagne is home to a high quality wine region, renowned throughout the world for its prestigious champagnes. The champagne houses produce the top brands from grapes purchased from

winegrowers and from selected crus, in order to compose the blend of their brand. They are at the origin of the notoriety and prestige of champagne wines in the world and today carry out more than 90% of exports throughout the world.

The routes proposed for these MG Days on the Montagne de Reims and the Marne valley pass through a large number of wine-growing villages. The Champagne winegrowers number 15,000, and own almost all of the Champagne vineyards (90%).

The Marne region is also known for the terrible clashes that took place during the First World War. Many sites bear witness to this period.

## The MG Days – MG Centenary

### The MG Days

Every two years, the MG Club de France organizes a major event open to all brand enthusiasts, whether they are members of the club or not. The MG Days were organized in 2019 in Magny-Cours and in 2021 in Vichy (that year also celebrated the 40th anniversary of the MG Club de France).

### MG Centenary

The founder of the brand, Cecil Kimber, sold on June 1, 1923 a Morris modified by himself: It is the MG Super Sports.

Cecil Kimber's idea was to offer improved cars based on Morris, with better performance and which could be sold at a better price. It was the beginning of a long story that would make the MG brand the archetype of the British sports car.

And it is this centenary that we are celebrating together during these 4 days in Epernay 😊.
